**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10(part), 12(part), 14(part), 15-23(part), 37-45(part), drawn to Adenines.

Group II, claim(s) 1-10(part), 12(part), 13, 14(part) 15-23(part), 37-45(part), drawn to Guanines.

Group III, claim(s) 1-10(part), 12(part), 15-23(part), 37-45(part), drawn to diaminopurines.

Group IV, claim(s) 1-10(part), 12(part), 15-23(part), 37-45(part), drawn to Hypoxanthines.

Group IV, claim(s) 1-10(part), 12(part), 15-23(part), 37-45(part), drawn to Xanthines.

Group V, claim(s) 1-9(part), 14(part), 15-23(part), 37-45(part), drawn to 2-Amino-6-Cl-purines.

Group VI, claim(s) 1-9(part), 11, 12(part), drawn to Other heterocycles.

Group VII, claim(s) 24-35, drawn to Non-heterocyclic cyclohexene, cyclohexadiene or benzene triols or derivatives thereof.

The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature of Groups I-VI is the nucleobase or nucleobase analogue which constitutes B.

Art Unit: 1624

This part of the molecule is critical for the asserted utility. Each is considered to constitute in the art a structurally distinct moiety. The rest of the molecule has no significant unifying structure, having in common only a -CH<sub>2</sub>O- fragment. The intermediates of Group VII lack unity because they do not incorporate the essential structural element of the nucleobase or analogue thereof.

It is to be noted that Group VI includes a variety of diverse heterocycles, such as triazolopyrimidines or benzimidazoles; if this group is elected, as species is required, as is also the case with Group VII. A species is not required for any of the other groups. Applicants are reminded that this case does not have a single complete set of claims.

A telephone call was made to Barbara Johnson on 5/10/2004 to request an oral election to the above restriction requirement, but did not result in an election being made. A written restriction was requested.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark L. Berch whose telephone number is 571-272-0663. The examiner can normally be reached on M-F 7:15 - 3:45.
